EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification, page 3, paragraph 15, "BRIEF DESCRIPTION OF THE DRAWINGS" has been replaced by --DETAILED DESCRIPTION OF THE PREFERRED EMBODIMENTS--.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

With regard to apparatus claims 1-9, the claimed combination including the limitations directed to a valve actuator with a camshaft and a hydraulic lash adjuster being lifted to provide constant contact between a rocker arm and another valve activating component, is not disclosed nor rendered obvious over the art of record.

With regard to method claim 10, the method claim is commensurate in scope to independent claim 1 and includes additional limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hara (PN 6,085,704), Moyer (PN 5,695,430) disclose similar valve operating devices.
